1 - PRECAUTIONS D'USAGE

(La garantie du produit est conditionnée par le respect de ces règles)

MONTAGE et MISE EN SERVICE

Pour les produits livrés avec des filtres, ceux-ci doivent impérativement être montés conformément à la notice.

Avant la mise en service de nos robinets, quels qu'ils soient, il est indispensable de purger soigneusement les canalisations qui peuvent endommager les mécanismes.

Pression de service recommandée suivant NF EN 1111 :1 à 5 bar.

NETTOYAGE

Le revêtement chromé des robinetteries PRESTO® doit être nettoyé exclusivement à l'eau savonneuse. Proscrire les produits d'entretien abrasifs, acides, alcalins ou ammoniacés

Température différentielle minimale entre eau chaude et sortie mitigée : 15°C

LES ROBINETS PRESTO

EN**1 - PRECAUTIONS FOR USE****(The product guarantee depends on the respect for these rules)****INSTALLATION and START UP**

For products delivered with filters, these must be installed in accordance with the instructions.

Before commissioning any of our valves, it is essential to carefully drain the pipes that can damage the mechanisms or water passages.

Recommended operating pressure according to NF EN 1111: 1 to 5 bar.

CLEANING

The chrome-plated coating of PRESTO® valves must be cleaned only with soapy water.

Abrasive, acid, alkaline or ammonia-based household products are prohibited.

Minimum differential temperature between hot water inlet and mixed water outlet: 15°C

D**1 - VORSICHTSMASSNAHMEN****(Die Produktgarantie gilt nur bei Beachtung dieser Regeln)****MONTAGE und INBETRIEBNAHME**

Bei mit Filtern gelieferten Produkten müssen diese unbedingt unter Beachtung der Anleitung montiert werden.

Vor Inbetriebnahme unserer Armaturen, egal welchen Typs, muss vorher immer eine sorgfältige Entlüftung der Rohre erfolgen.

Von der Norm NF EN 1111 empfohlener Betriebsdruck: 1 bis 5 bar.

REINIGUNG

Die Chrombeschichtung der PRESTO®-Armaturen darf nur mit Seifenwasser gereinigt werden.

Abrasive, saure oder ammoniakhaltige Reinigungsmittel dürfen nicht verwendet werden.

Minimaler Temperaturunterschied zwischen Warmwasserzulauf und Mischwasserauslass: 15°C

ES**1 - PRECAUCIONES DE USO****(El respeto de estas reglas condiciona la garantía del producto)****MONTAJE Y PUESTA EN SERVICIO**

Para los productos suministrados con filtros o llaves de paso, éstos deben montarse imperativamente conforme las instrucciones.

Antes de la puesta en servicio de nuestros grifos cualquiera que sean, es indispensable purgar totalmente las cañerías.

Presión de servicio recomendada conforme a la norma NF EN 1111: 1 a 5 bar.

LIMPIEZA

El recubrimiento cromado de nuestros grifos PRESTO® debe ser limpiado exclusivamente con agua jabonosa.

Son totalmente perjudiciales los productos de conservación abrasivos, ácidos, básicos o amoniacos.

Diferencia mínima de temperatura entre la entrada de agua caliente y la salida de agua mezclada: 15°C

IT**1 - PRECAUZIONI D'USO****(La garanzia del prodotto è soggetta al rispetto delle presenti norme)****MONTAGGIO e UTILIZZO**

Per quanto riguarda i prodotti consegnati completi di filtri, questi devono essere tassativamente montati in conformità a quanto riportato sulle istruzioni.

Prima della messa in funzione dei rubinetti, indipendentemente dal tipo, è indispensabile spurgare accuratamente le tubazioni per evitare di danneggiare i meccanismi o i passaggi dell'acqua.

Pressione di servizio raccomandata, secondo NF EN 1111: da 1 a 5 bar.

PULIZIA

Pulire il rivestimento cromato delle rubinetterie PRESTO® esclusivamente con acqua saponata.

Non utilizzare prodotti detergenti abrasivi, acidi, alcalini o contenenti ammoniaca.

Differenza di temperatura tra acqua calda e acqua miscelata: 15°C minimo

NL**1 - VOORZORGSMATREGELEN****(De garantie van het product is voorwaardelijk, zij is afhankelijk van de naleving van deze regels)****MONTAGE en INBEDRIJFSTELLING**

Voor producten die geleverd werden met filters geldt dat deze in ieder geval moeten worden gemonteerd, in overeenstemming met de handleiding.

Voor de inbedrijfstelling van om het even welke van onze kranen, is het noodzakelijk zorgvuldig de leidingen te ontluichten, die de mechanismen kunnen beschadigen of de doorstroming van water kunnen schaden.

Aanbevolen gebruiksdruk volgens NF EN 1111: 1 tot 5 bar.

REINIGING

De chroomlaag van de PRESTO® kranen mag uitsluitend worden gereinigd met zeepwater.

Verboden zijn schurende, zure, alkalische of ammoniak bevattende onderhoudsproducten.

Minimaal temperatuurverschil tussen toevoer warmwater en afvoer gemengd water: 15°C
